

## Scorch XBOX360/PC

Model : XBOX360/PC

Scorch XBOX360/PC

FEATURES:WirelessInvisible Laser No LagFull xBox 360/PC SupportFirmware UpdatesConfig ToolsHigh QualityRapid Fire

### DESCRIPTION:

Scorch360 is a PC/xBox 360 controller that is compatible with all PC and 360 games. Use the mouse for targeting prey while moving with the left hand Grip. Works with all xBox 360 and PC games without the need for special xBox software.

Between the Mouse and Grip, Scorch360 contains all the normal xBox controller buttons making it ideal for that first person PC shooter game style you're used to.

Go Big:

For PC use it does not get any better - you can use the Mouse just as any other normal mouse but with the high res adjustable laser. Silky smooth no lag game play. Connect your PC to your big screen TV and go with BIG PC game play.

A Killer Product:

Simply put, Scorch360 is the most advanced controller in the world. Programmable, digital sniper buttons and upgradeable firmware provide unprecedented levels of accuracy. Scorch is also a full featured wireless PC gaming WASD controller.

The worlds most advanced ultimate console controller that maintains that PC first-person shooter experience across the PC and xBox 360.

Note: Requires a wired xBox controller to initiate the xBox console. Once initiated Scorch does not use the controller.

Note: You will need to use a wireless communicator with the xBox 360 to use voice along with Scorch.
