

Silent scope light rifle XBOX

Model : xbox

Silent scope light rifle XBOX

Features:

- Selectable motion activated scope
 - HDTV Compatible
 - Convertable to Pump Action Shotgun with removable Stock, Barrel, and Scope
 - Pump Action Reload
 - Realistic Linear Kickback
 - Normal, Burst, Auto Reload, Auto Fire
 - Xbox LIVE and Memory Card Slot
 - Supports all Video Connections including Component video
 - Built-in directional thumbstick control
 - Rubberized Butt on the Stock
- Note: Light guns only work on CRT-based TVs (which includes CRT-based projection TVs). The light gun knows where you're aiming because it can capture the electron gun's location as it sweeps across the screen as it paints the image. LCD, Plasma, DLP, and LCOS sets don't have electron guns, and therefore there is nothing to capture when you pull the trigger.

Prijs : €65.00
